about christian co.

01

about us

Christian Co. is a general services company that deals with logistics, technology, and customer experience services.

MISSION

Combining the rich experience and history of our founders, Christian Co. approaches every project with precision and a global standard of excellence.

VISION

Our aim is to fill in the gap for Nigerian businesses and organizations where a global standard of execution needs to be applied. Over time, we envision a Nigeria where many essential businesses have perfected logistics, technology and customer experience, leading to a more productive and prosperous nation.

about

core values

Expect the best at Christian Co.

professionalism

Our approach to work is "Excellence in all things." We're invested in you achieving your goals. We don't leave things done half way.

creativity

We bring refreshing solutions that don't feel copied or "done before." We play by the rules but if we do break a rule, we make sure it's the right one, in the right way.

timelessness

While we pay attention to trends, we don't fall victim to them. We go for styles that can confidently carry you years into the future: Classic and timeless.

personalized experiences

We love to capture the essence of our clients' businesses and their vision for themselves. We want you to feel understood every step of the way.

fluidity

Whether you are a solopreneur or a government agency, you can find something to serve you at Christian Co.

our services

02

technology

Web Applications

Custom, high-functioning websites with log-in functionality, allowing you optimize internal processes within your organization through centralised platforms.

Common use-cases: government portals, education portals, e-commerce websites, business intelligence dashboards, inventory management systems and more.

Government Web Applications

Secure web applications and websites that offer a centralized platform, showcasing all the achievements, ongoing projects, and future projects of the state and the state government to citizens and potential investors.

Common use-cases: Details of all state local government areas, information on precious minerals and other natural resources, project application portal, praise reports highlighting the prosperity of the state and the performance of the state government and more.

technology

Websites

We build your online home, adding legitimacy and credibility to your business and exposing you to international opportunities.

Common use-cases: web profiles, blogs, news sites, academic institutions, government pages, photography portfolios and more.

Mobile Applications

Become an integral part of your customers' lives with mobile apps that remain with them on or offline.

Common use-cases: shopping app, educational applications, grocery store apps and more

logistics

General Supply of Goods or Services

Procurement and supply of office furnitures, cars, office equipment, stationary, diesel, security equipment, sound equipment, professionals, personnel and general procurement of any goods and services.

Event Management

Event management including but not limited to event planning, procurement of sound equipment, sound engineers, audio visual equipment, audio visual engineers, location, ushers, catering and more.

social media

Graphic design

Design of social media posts including professional photo editing, video editing, poster design, carousel design and more

Media Capture

Professional photo and video capture for use on social media pages and websites.

Social media page management

Creating, planning, and scheduling posts for a pre-agreed period of time in line with your organization's core values and branding

customer experience consult

Get custom health checks for multiple areas of your business that impact customer experience especially where the business owner might not be on ground. We utilize mystery shoppers with discreet surveillance equipment and detailed documentation. Checks include:

- **Location** - accessibility of location, cleanliness, availability of parking and more
- **Staff Presentation** - Appearance and politeness of staff as well as their adherence to company policies
- **Communication** - Responsiveness on social media and via phone calls and messages
- **In-store experience** - ease at which customer is able to obtain the goods or services they came for
- **Online presence** - presence of your website and details of your business on the first page of a standard web search and the ease at which customers can find you online
